

# VISUAL 60

Modernity. Spatiality. Durability.

Also called sliding glass doors, these products have at least one part that slides slightly over a second offering you a wide-open space and a perfect panorama.

The Visual 60 sliding door can reach a maximum glazing surface of 86.11 ft<sup>2</sup> for a 2-leaf door so you can enjoy everyday your favorite landscape.

Furthermore, the profile allows the manufacturing of these products also sliding into the wall so you can have a larger passage.
