

Performant 88

Innovation. Style. Quality.

This is the window for a new era: Performant 88. It has the best thermal insulation for PVC windows, it's a designer of architectural trends, a pioneer of quality and reliability.

The exceptional features of this window are not only limited to its energy saving properties, but also to the architectural potential that directs our eyes to the future: the stable structure of the profile allows triple glazing of 2 $\frac{3}{64}$ thickness.
